SECRETARY TO GOVERNMENT 18 SEP 1931 LOCAL SELF GOVERNMENT DEPARTMENT

37463

Ref. C. No. 4289/31-P5 dated 15th Sept. 1931

Sir,

ENCLOSURES Two

SPARE COPIES

* Plague establishment - Bellary District - retention for half year ending 31-3-1932 - proposals sent.

A statement showing the existing Plague establishment is enclosed (statement A).

2. There was practically no plague during the half-year. The staff was engaged on rat destruction. The period from September to March next is the season for the out-break of plague. Rat destruction work will have to continue, for which the full complement of staff is necessary during the next half year. 6 L.M.P. Plague Inspectors have been provided for in the current half year. Now provision is made for 2 L.M.P. Plague Inspectors and 4 non-L.M.Ps. with a view to reduce expenditure. The employment of the staff as detailed in statement "B" attached, may be sanctioned.

3. Provision is as usual made for the employment of additional staff for rural areas in cases of emergent necessity. It may also be sanctioned. The additional staff will be employed only when absolutely necessary and disbanded when no longer required.

Subject.

Plague - Temporary Establishment - Bellary District - Retention during second half year ending with 31.3.1932.

ENCLOSURES.

[redacted] .....

[redacted] .....

[redacted] spare copies .....

R. No. 2097-1 P.H.

Station Madras., *Dated the* 8th October 1931 .

From (Name) Major J.R.D. Webb, O.B.E., I.M.S.,

(Designation) Offg: Director of PublicHealth, Madras

To The Secretary to the Government of Madras,

Local Self Government (Public Health) Department.

Sir,

Retransmitted.

2. From the appended plague statistics for the past five years, it would appear that plague has been going on fairly severely.

Year.	Bellary M.T.	Hospet M.T.	Rural Areas. No. of villages affected.	Rural Areas. Total attacks.
1925.	...	...	11	205
1926.	1.	111	53	697
1927.	2	87	167	1298
1928.	87	5	75	619
1929.	...	27	114	294

3. The taluqs that are usually affected are those that

are

are in the western parts of the District, i.e., Hadagalle, Harpanahalle Hospet, Kottur and occasionally Bellary also. It is therefore necessary that the plague staff should work in the western taluqs.

4. In view of these facts, I consider the full establishment of plague executive staff as recommended by the Collector is absolutely necessary and the same may be sanctioned; but, I am not quite convinced of the need for a whole time plague clerk in the Collector's office. The plague work may as well be attended to by one of the vital statistical clerks. There does not seem to be a separate clerk for this work in any other heavily infected districts like Madura, Coimbatore and Salem. The post of plague clerk may, therefore, be conveniently abolished.

5. The expenditure will be met partly from the current year's allotment and partly from the provision to be made in 1932.33 under 33.c. (Public Health) - Expenses in connection with epidemic diseases - A. Bubonic Plague.

for Major, I.M.S., 8/10.
Offg: Director of Public Health, Madras.

ORDER.

No. 2092 PH, dated 31-10-1931.

2. The Collr is informed that the Savings resulting on account of the non-employment of the Plague clerk in the Collr's office should be surrendered in this ...

He is also informed that the rates of T.A proposed by him for the Plague staff are subject to a reduction of 12½%.

The Govt do not consider that the appointment of a Plague clerk in the Collector's office is necessary. This work may be attended to by one of the clerks employed for Vital Statistics work with the exception of this clerk the Govt sanction the employment of the staff proposed by the Collr in his letter read above for Plague work in the D.t for the half year ending 31.3.1932.
